Services

Our broad service offer gives you the freedom to decide how much you want to do yourself and how much you want us to do for you.

Below you'll find all the services that we can offer, and how much each of them costs.

Kitchen planning

Even on big projects, the little things matter. Discuss your kitchen ideas with our team of design professionals and we'll help nail them down in detail.

Measuring

If you prefer, we measure the room and check everything, from the placement of windows, doors and power sockets to the material and condition of the walls.

Delivery

Whether you're shopping in store or online, and no matter how big the purchase, we'll do the heavy lifting and bring it to your home or business.

Assembly

All of our products are designed to be assembled by you, but we're more than happy to help put it all together, too.

Kitchen installation

Need a little help or a lot? We offer a range of installation options, so just choose the service level you need and we'll come and get things up and running.

You can do it yourself, but you don't have to

Payment Options

We accept many payment methods, including cards and cash. And if you need a little longer to settle your bill, we can help you spread the cost with our 0% Instalment Payment Plan (IPP). Simply inform our cashiers you'd like to do so. Terms and conditions apply.

Return Policy

Return policy
The terms and conditions set out in this return policy apply to all goods purchased from an IKEA store in Singapore.

Your right to cancel

You're free to change your mind. Return unused items in their original packaging within 365 days together with proof of purchase for a full refund. This return policy is in addition to your statutory rights. The IKEA stores reserves the right to refuse a refund and offer an exchange or IKEA gift card only if the return criteria are not met.

What type of kitchen are you looking for?

Whether you're looking for a complete kitchen system like METOD that you can personalise any way you want, or a simpler kitchen that you can install in a day, we have what you're looking for. Here you have three different types of IKEA kitchens to suit different needs and wishes.

METOD kitchen system

Our METOD kitchen system includes cabinets in several different sizes to fit your room layout as well as your kitchen habits. The flexibility of the system offers endless of choices, giving you the freedom to customise a kitchen that's ideal for you and your space. We've also developed an extensive range of kitchen organisers and interior fittings allowing you to quickly see and reach even the things furthest back in the corner cabinets. In addition you have a vast choice in front expressions, worktops, lighting, sinks, taps, knobs, handles and much more to personalise every inch of your kitchen

See page 08

KNOXHULT kitchen

KNOXHULT comes in pre-set modules that you can arrange the way you prefer. Together with our LAGAN appliances you can get a complete kitchen with all the basic functions you need at a low price. Add sink, tap, knobs and handles of your choice to complete the look. The simplicity of the pre-set modules makes the installation so easy that you can have a fully functional kitchen up and running the same day you bring it home from the IKEA store. **See page 46**

SUNNERSTA mini-kitchen

If you like to keep it simple and don't need an elaborate kitchen, SUNNERSTA might be your treat. This flexible mini-kitchen is easy to buy, get home, install and take with you if you move somewhere else. Add TILLREDA portable induction hob and TILLREDA fridge, and you'll have the basic functions you need for a small space apartment, guest house, dorm room or wherever you might cook your next meal. **See page 50**

METOD kitchen system

Decorative strips

Decorative strips provides the finishing touch to your kitchen. They come in many different styles, but we have something for all or our door and drawer families. Use them to tie your style together, hide lighting or just as a decorative element.

You can choose how to mount them on your cabinets. Below we show the entire range and some different ways of mounting them both above as mouldings and below your cabinet, either wrapped around the whole cabinet or just between your cover panels.

KNOXHULT kitchen

When basic functions and low price matters

To make it easy for you, we've already combined ready sets with cabinets, doors, worktops, shelves, drawers, sink, tap and water-trap. All you have to do is to pick the finishing touches, like knobs, handles and appliances. If you bring it home from your local IKEA store in the morning, you can have it installed and ready for cooking

a late supper in the evening. Go to ikea.sg to see all the ready-made sets. You can of course pick and choose exactly the KNOXHULT cabinets you want, too. On the next pages you'll see what choices you have.

KNOXHULT is functional and easy to plan. Pick the combinations you like, then choose appliances, sinks, taps knobs and handles. Done!

Lighting and sound

A brighter kitchen life

Good lighting is an essential part of any kitchen. That's why we offer four integrated lighting series perfectly dimensioned to fit our kitchen cabinets. Having integrated lighting in your kitchen is a great way to show off your favourite dinnerware behind glass doors or in drawers. And, good lighting brings alive your cabinet doors, worktop and wall panels, too.

Get an even better kitchen life with the ability to dim, change from warm to cold light, turn off and turn on light wirelessly. All you need is TRÅDFRI remote con-

trol. Or, use the TRÅDFRI gateway and IKEA Home smart app to control every beam of light with your smartphone. We call it IKEA Smart lighting.

Sound is a powerful mood booster, much in the same way as light. Both are crucial for creating the right atmosphere at home and both are deeply personal – each of us has our own unique preferences in terms of volume, brightness, type, and genre. Like light, sound is culturally and socially important; it brings people together.

Kitchen installation

If you want we can install all your kitchen lighting for you, as a part of our Kitchen Installation service. See more on **page 4**.

Sound has the ability to change the atmosphere at home dramatically. So, turning a grey day into a great day is only a touch of a button away.

Drawer lighting simplifies finding what you need even during those midnight kitchen raids. Opening and closing the drawer turns the light on and off automatically.

Spotlights provide a focused light that is good for lighting smaller areas and behind glass doors.

Worktop lighting should give you a clean, clear view of all the work you're doing in the kitchen.

Cabinet lighting illuminates your favourite kitchen doors and creates cosy mood light in the entire kitchen.

OMLOPP series

OMLOPP has a compact design and is easy to install as each element has its own cable which connects to the LED driver.

OMLOPP LED worktop lighting. Matches your cabinet sizes and features a compact design. To be completed with TRÅDFRI LED driver and FÖRNIMMA power supply cord sold separately. Dimmable with TRÅDFRI remote control and TRÅDFRI gateway, sold separately.

Worktops

Your kitchen is the heart of your home, it's a room for everyone! How it performs and how it looks are two important factors. Even though doors and drawer fronts are the main style decision you make when updating your kitchen, your worktop can have a big impact on the overall look. However, the perfect worktop is not just about completing the look of your kitchen, it has an impact on its functionality too. When picking the right worktop there are many factors to

consider, including your style, durability, maintenance, lifestyle and cost. Our worktops are available in pre-cut and custom made as well as in a wide range of durable materials, finishes and thicknesses. Each surface has unique properties, with differing levels of water, wear and heat resistance.

How to choose your worktop:

01

What's your budget? A stylish look does not have to cost a fortune, our worktops are available in wide range of materials and expressions, pre-cut as well as custom-made to perfectly fit your style, needs and wallet.

02

What kind of material do you prefer? When deciding on material, consider how robust you need your worktop to be, how much you are prepared to look after it, and how you want it to look in your kitchen scheme.

03

Custom made worktops are made to fit your kitchen layout, you can order the exact length and depth you need, as well as cut-outs for your sink, tap and hob.

25
Year
Guarantee

All worktops come with a free 25-year guarantee. Find out more on page 108.

Built to last

When we test our worktops we put them up against everything they'll face in your kitchen: liquids, oil, steam, heat, thumps, bumps and scratches. Once we're done we're so sure our worktops will last, we guarantee it.

Materials

Laminate

Laminate worktops are affordable, easy to maintain and there are lots of colours and expressions to choose from. They are made of laminate pressed onto particleboard. Both heat and pressure are applied to harden the surface and create a durable worktop.

Thick veneer

Thick wood veneer worktops offer the natural colour and grain of wood, adding warmth to your kitchen. They are pre-treated for quicker installation and can be sanded and treated when needed. The thick veneer technique allows us to create patterns and expressions that are otherwise difficult and expensive to achieve - with the efficient use of natural resources.

Acrylic

Acrylic worktops have a smooth, non-porous surface that is resistant to stains and moisture, making them easy to clean. The colour and design run all the way through the material. This means they can be polished to remove any surface damage such as scratches, allowing you to restore the surface to its original condition.

Quartz

Quartz worktops are extremely durable, resistant to scratches, moisture and impacts. They are made by combining ground quartz (one of the hardest materials in nature), resins and pigments. This creates a very hard, non-porous surface that is smooth, easy to clean and does not require any sealing treatment. Our quartz worktops are 2 or 4 cm thick and come in a wide variety of expressions.

Laminate worktops 2.8 cm thick

EKBACKEN and LILLTRÄSK laminate worktops are 2.8 cm thick and have a straight edge. They are durable, easy to maintain, and come in an extensive range of colours and textures (standard, matte, high gloss and even soft-touch).

EKBACKEN and LILLTRÄSK laminate worktops are available as pre-cut (take home today). Pre-cut worktops can be cut to the exact length you need and finished with the edge strip included in the package.

Thick veneer worktops 3.8 cm thick

Natural and hard-wearing, wood brings a warm feeling to your kitchen and makes each worktop unique. With thick veneer worktops, a 3 mm layer of wood covers a particle-board core to add excellent stability. This construction makes the worktop less sensitive to humidity and much less likely than solid wood to bend, split or crack. Also, with this technique, we can create new unique expressions using less wood, and reducing the impact on the environment.

The worktops are pre-treated with hard wax oil to create an easy-care surface for immediate use. Over time, it will only look better, gaining in character. They can be sanded and treated when needed meaning that they will age gracefully.

Thick veneer worktops come in the following crafted patterns: narrow stave, full plank, butcher-block, fine line and chevron.

Thick veneer worktops are available as pre-cut (take home today). Pre-cut worktops can be cut into the exact length you need and finished with the edge strip included in the package.

Oak
Oak wood is exceedingly strong, heavy and durable. It is an attractive light colour with a prominent grain. Its colour ranges from light brown to a rich reddish-brown and it darkens beautifully with age.

Quartz worktops 2.0 and 4.0 cm thick

KASKER quartz worktops come in matte or polished finishes, different thicknesses and colours. You can also choose between different edges for an even more personalised expression. Quartz worktops have a smooth, non-porous surface. This makes them hygienic and resistant to stains and moisture, and they don't require sealing.

As the quartz content is a natural material, you can expect slight variations in colour, and in the size, shape and distribution of particles. These slight variations are part of the beauty and charm of the material and make every worktop unique. Quartz worktops are available only as custom-made.

How to buy a custom made worktop and wall panel

Custom made the way you want it

Use our simple online calculator to design a custom made worktop and wall panel for your kitchen. You get an instant estimate of what everything will cost, too. You can choose different worktop, wall panel and sink materials, sizes and styles to personalise your kitchen just the way you want it. The custom made worktop calculator makes it super easy to try out different options and compare their prices.

Check it out at [IKEA.sg](https://www.ikea.sg)

01

Material and colour

There are several colors and materials to choose from. For worktops, choose between laminate, solid wood, wood, quartz and acrylic. For wall panels, choose between laminate, acrylic, quartz or glass.

02

The worktop edges

Choose the desired shape and material for the edges. Depending on the material you've chosen for your worktop, you have different options.

03

Choose your sink and tap

04

Take measurements

Then start to measure to see what size and shape of worktop you need. If you would like help with this, or with anything to do with measuring your kitchen, our measuring service can come to your home.

05

We're here to help

To design your custom made worktop and wall panels use our online calculator or get help from an IKEA co-worker in the kitchen department at your local store.

06

Order

To order your custom made worktop and wall panel, please contact an IKEA co-worker in the kitchen department at your local store.

How to measure your worktop

Start by measuring your worktop from the corner where it attaches to the wall. Make sure to make your measurements alongside the wall and always start from the same point. When measuring the depth, start from the wall and measure out. Don't forget to add 1.5 cm for an overhang too.

If you need to measure for a freestanding worktop (for a kitchen island for example),

simply start from one end and add 3 cm extra for an overhang.

To measure for a sink start from the same point where you've taken your previous measurements and measure to the centre of where you would like your sink to sit.

Wall panels

Walls to match your style!

Adding wall panels is a quick and easy way to update your kitchen with new colors and texture. Our durable and easy-to-clean wall panels protect your walls from splashes and stains when you are cooking. They give you a neat finish where your worktop meets the wall and add a subtle accent of color to your

kitchen walls creating a stylish look. You can choose wall panels in various colors, materials and expressions, some are even double-sided! But if you want to go very personal, you can have your own customized one.

How to choose your wall panel:

01

What's your budget? A stylish look does not have to cost a fortune, our wall panels are available in a wide range of materials and expressions, pre-cut as well as custom-made to perfectly fit your style, needs and wallet.

02

What kind of material and expression do you prefer? The material of the wall panel you choose is just as important as the colour. Your wall panel is always going to be right up against your worktop, make sure the two materials and colours work well together.

03

Your wall panel has to end up somewhere! Where it ends is up to you – along the length of the wall, up to the bottom of your wall cabinets, up to the ceiling in areas where there are no cabinets (over the sink or over the hob).

Materials

Laminate

Laminate wall panels offer a wide variety of colors, patterns and textures needed to personalize your kitchen space. They are resistant to water splashes, stains and grease, which makes them a durable and low maintenance choice.

Quartz

Quartz wall panels are extremely durable, resistant to scratches, moisture and impacts. They are made by combining ground quartz (one of the hardest materials in nature), resins and pigments. This creates a very hard, non-porous surface that is smooth and come in a wide variety of expressions.

Acrylic

Acrylic wall panels have a smooth and non-porous surface that is resistant to stains and moisture, making them easy to clean. They're repairable if damage does occur. They're a durable, low maintenance option you can rely on.

Custom made wall panels

Complement your custom made worktop with a matching wall panel made to perfectly fit your kitchen layout.

Sinks

A busy place in the kitchen

The sink and the area around it, is one of the busiest places in the kitchen. You use it for everything from preparing food and rinsing vegetables, to storing dirty dishes and washing up. To make

the activities as easy as possible, choose a sink and sink accessories that match your needs and the way you work in the kitchen.

How to choose your sink

01

How much space have you allocated for the sink? Our sink cabinets are 40, 60 or 80 cm wide.

02

Think about how you prepare food, but also how you wash up. Do you have a dishwasher or do you wash the dishes by hand? Do you need one bowl, two bowls or a sink with drainboard?

03

Complete your sink with sink accessories that help you organise the area in and around the sink, both when you prepare food and when you wash up. **(see page 87).**

25
Year
Guarantee

We test our sinks to ensure they can withstand the demand of everyday life in the kitchen. That's why all our sinks come with a free 25-year guarantee (except FYNDIG). Find out more on **page 108**.

Our range of sinks

Single bowl sinks

If space is an issue, one single bowl is a good option. Plus, in a big single bowl you can easily wash large pots and pans. Combine with sink accessories to make the bowl as functional as possible **(see page 87).**

Double bowl sinks

Having two bowls is ideal if you have a lot going on at the same time. For example, if one of the bowls is piling up with dirty dishes, you can still rinse off vegetables and alike in the other.

1½ bowl sinks

A one and a half bowl sink gives you the same advantages as a double bowl sink, but in a smaller area.

Sinks with drainboard

A sink with a drainboard is ideal for drying dishes as the sloping surface make excess water flow back into the bowl. All our sinks with drainboard are reversible, so you can choose if you want the drainboard to the left or to the right.

Kitchen taps

Saving water at every step

Earth may be covered in a lot of water, but very little of it is drinkable and even less is accessible. No organism can survive without it, and no new water is created. It's constantly recycled, but our freshwater supply is overused; not evenly distributed; and impacted by pollution, contamination and climate change. That's why we equip all our

kitchen mixer taps with a water saving aerator that reduces water use – while maintaining the same water stream. We didn't invent aerators, but think they are an important example of how we can work together to save water for everyone's benefit.

10
Year
Guarantee

All our kitchen mixer taps are tested and third party certified to meet, or exceed, the demands of the relevant national and international mechanical, quality, safety and hygienic standards. All IKEA kitchen mixer taps come with a free 10-year guarantee. Find out more on **page 108**.

Kitchen organisers

A kitchen easy to live in

Your kitchen isn't fully in function until everything in it has found a place of its own. With smart organisers and accessories, you'll find what you need, when you need it.

Your best kitchen friends

Trays, boxes and waste organisers help you to make the most of the space inside your kitchen cabinets.

The sink area is a busy place. We have accessories with multiple purposes that can help you utilise the area in and around the sink, supporting the workflow both when preparing food and washing up.

Utilise the full area in the kitchen, even the walls. With smart wall storage often used items can be close at hand, at the same time you free up workspace.

Create the perfect combination for your drawers

Less time searching, more time for cooking. Clever inside trays for your drawers keep cutlery and kitchen utensils organised and in place. To really make sure you

can see everything in the drawer, complete with kitchen lighting. See all kitchen lighting on **page 52**.

Waste sorting combinations

Are you curious about how your waste can become new resources? HÅLLBAR series helps you sort different materials into different bins – a simple action and the first step towards giving waste a new life. HÅLLBAR

waste sorting management serie is a waste management solution for any room of your home and can be built-in and freestanding, whichever you prefer.

The bin's ventilation holes and the form of the bottom allow the air to circulate and dry out the organic waste. This mini-mises unwanted odours.

A ring on the top edge of the bin hides the waste bag and keeps it in place. It's removable either for easy cleaning or if not being used

The folding handle makes it easy to carry the bin with you to the waste station.

Different-coloured stickers are included so you can mark each bin according to what you are sorting. You can also draw or write on the stickers to make it even more clear what goes in each bin.

MAXIMERA high drawer, 60 cm wide, 45 cm deep

HÅLLBAR bins are designed to meet different waste sorting needs. This narrow combination is suitable if you have limited space and choose to sort your waste at the recycling station.

Kitchen accessories

Whether you have a new, beautifully-planned kitchen or just looking to make improvements in your current one - there are a few secret ingredients that will make life simpler and more enjoyable. For instance, smart organisers create natural spots for storing cooking utensils and gadgets, so the whole family knows where to find them - and where to put them back. Trays, boxes and waste organisers work double

shift by preventing clutter and making the best use of space inside your cabinets and drawers. Wall storage does its magic by putting all those things you use the most, close at hand - right where you need them. And for the busiest place in the kitchen - don't forget the clever accessories around the sink that come in handy when preparing food and washing up.

Kitchen islands, sideboards, trolleys and step stools

All of these are easy additions to any kitchen design. A kitchen island serves as an extended worktop space and often becomes a favourite spot for snacking, working and socialising. Sideboards add that little extra storage we all need and a trolley on wheels offers roll-anywhere convenience. A step-stool is a must-have for any kitchen, for reaching things up high, letting kids join the fun at the worktop, or using as extra seating by the table.

Having things in plain sight has its advantages

With open shelves, hooks, rails and racks you can create a personal combination that gives a good overview of your kitchen and makes everything easily accessible. Inspired by restaurant kitchens, we created KUNGSFORS series of wall-mounted shelves and accessories so you can feel like a professional and enjoy a smooth workflow.

Steps to buying an IKEA kitchen

IKEA kitchens are designed so that you can install them yourself. To the right are some steps to ensure the process goes well for you. Should you have any questions, don't hesitate to talk to our kitchen experts at your local IKEA store or visit us at: [IKEA.sg](https://www.ikea.sg).

Find your style

It's time to dream a little, look at some ideas, consider your needs and decide what an ideal kitchen means for you. This buying guide is made to give you an overview of some of the possibilities but there is so much more. You can find more ideas and inspiration on our website, in the kitchen brochure or by visiting your local IKEA store.

Measure

When measuring it's important to take your time and get your measurements correct. This will form the foundation of all your planning. To see exactly what to measure, pick up a copy of the planning guide Your new IKEA kitchen at your local IKEA store or at [IKEA.sg](https://www.ikea.sg).

Plan

Planning your kitchen is when your dreams and ideas take shape. Use the online IKEA Home Planner tool to start planning your kitchen. Or, if you would like some advice we have kitchen planners ready in the store to help.

Order

When you're satisfied with your planning, visit your local IKEA store and talk to our kitchen experts. They will go over your kitchen plan with you, and help you with anything you're not sure about. When you are ready you can order and we can help with delivery.

Install

IKEA kitchens are designed to be installed by you, but we're here to offer as much help as you feel you need. You can start by picking up the kitchen installation guide from the store which gives step-by-step instructions on installing your kitchen.
